Volunteer Session -- January 31 @6pm Will You Join Us?

2023 is certain to be a memorable year in the history of Chatham County's **School of the Arts for Boys Academy (SABA)**, as we finalize work for our inaugural school year, which starts this fall for boys in grades 3-to-6..

SABA will be a national leader in the educational concept that utilizes an arts-based academic focus, as a means of helping all boys overcome the achievement gap that is customary in traditional school settings.

We've been gratified by the enthusiastic support we've received thus far and welcome your continued participation in our mission.

Valencia Toomer, Founder & Head of School

It is said that "many hands make light work" and we are taking that expression to heart! There's a lot to accomplish, as we focus our energies on recruitment and community outreach in the coming months. SABA Head of School **Valencia Toomer will be hosting a SABA Volunteer Session next Tuesday evening January 31, at 6pm.**

This meeting will be the perfect occasion to meet with fellow SABA supporters and discuss ways in which you can be part of our upcoming activities. From representing SABA at community events or displaying yard signs, to more active engagement in planning and

implementing youth programs and fund raisers, or helping to organize things at our new facility; there are plenty of opportunities to play a part in building this special educational resource for area boys.

If you are able to attend our meeting or would like to let us know your interest in future volunteer activities, please click on this link. We will contact you with meeting directions and more information about the event later this week.

Open Enrollment Is Underway For 2023-24 School Year

The **School of the Arts for Boys Academy (SABA)** is in the midst of our Open Enrollment period for our inaugural 2023-24 school year.

Classes in grades 3-to-6 for our Chatham County-based school begin this fall. The early admission stage of enrollment concludes April 30. At that time, SABA will conduct a random lottery from among our recent applicants to award seating for first-year students. Students will be chosen at random via a computer-generated program so that all students have an equal opportunity for selection.
